

Housemates Profile

Make a list of everyone in your House, you could even write about former House-mates from previous years (6th graders, you could ask 7th and 8th graders to tell you about them). Next to each name, write or draw something about that person. It could be just a few words, a story, or an illustration. Remember to be positive – when you look back on this you'll want to remember the best and most special things about your House. Somewhere on this profile, make sure to mention that it is your “house profile.”
