

What Is Your House Like?

Each House has its own personality, likes, dislikes and interests. What is your House into? What do you all do when you have free time? Who are you as a House and how can you show/tell that to someone else?

If you had to pick one word to describe your House what would it be and why? Use the space below to write that word and then describe why you would use that word to describe your House.

What are some of the sillier things your House does? How do you celebrate or what fun traditions do you have in House? Please use the space to both draw an example and write a description of one of these events.

What does your House take very seriously? What is it like when your House has an important issue to deal with? Please give examples.
