Parent funding support is needed to maintain a strong instructional program for our students. This support is used to maintain instructional technology, to help make field trips possible, for classroom supply costs that exceed our general district funding and to purchase student planners. The student planner is used to help teach organizational and time management skills, as well as a communication device between school and home. **We understand that some families may find this donation/contribution to be financially challenging or may wish to contribute in other ways; therefore please know this is not required.** One planner per student, with or without this school support contribution, will be provided free of charge. Replacement planners are available for \$5 each.
